Push2Fix (P2F) - Fixing Elements P2F (Push-to-Fix) - Fixing elements for PCBs

Color: Part no.:

> -40°C 80°C

transparent farblos 28.901.U162.10

Description

- Push-in fixing: for hole pattern in light fitting ø 4.2 +/- 0.1 mm and ø 4.3-4,8 mm in PCBs
 CrNi and silicone materials ensure long life reliability
 Suitable for Zhaga certified LED modules
 BJB recommends to use modules with ø 4,3-4,8 mm fixing hole diameter
 Due to manufacturing tolerances and tolerances required for thermal expansion, we recommend choosing the largest possible hole diameter
 Eliminates potential damage from screw fixing due to low insertion force
 Assembly without any additional tools possible
 Solutions for Automation upon request
 Removable from front

Product name: P2F - Push to Fix - Fixing element for PCBs

Total thickness (X): 1.5 - 2.0 mm

Key feature 1: Reliable heat dissipation due to a constant pressure.

Quick assembly process improves production efficiency and reduces Key feature 2:

production costs

Color: transparent natural

Mounting method 1: Push-in fixing for mounting PCBs

Weight:

5000 Pkg.:
